NWSC Driving Pattern - Powered Users

1. Power boats drive down the centre of waterway, keeping to the right of oncoming boats (at a safe distance).
2. Power boats must turn left at each end of waterskiing areas.
3. 3 boats maximum in each 1000m section.
4. 1000m section in front of office is to be used for power boat testing and ski school when area is powered use only.
5. After the skier has finished, the driver must stop, retrieve the ski rope and idle back to the beach when it is safe to do so.
6. Buoys at 50m intervals are to assist users with the correct driving patterns.
